FISHER TO START BACK TO-DAY.

IN CINCINNATI HE WILL HAVE TO ANSWER A CHARGE OF FORGERY.

Liverpool, Nov. 30.-J. B. Ford, alias Fisher, who was committed for extradition to the United States on November 8, on a charge of forgery brought by the Cineinnati Coffin Company, and Detective Witte. of Cincinnati, who has charge of him, are booked to sail for New-York to-morrow on board the White Star Line steamer Teutonic. Fisher was anxious to sail for the United States immediately after the completion of the extradition proceedings, but, owing to compileations which have arisen in cases of extradition, the courts refuse to allow foreign prisoners to waive habeas corpus proceedings. He will be taken to Queenstown by English officers. and, on arriving there, will be handed over to Detective Witte.

Fisher's wife, who is known to the police as "Sheeny Rachel," and who is said to be equally notorious, has lived in England during the prisoner's incarceration for shopbreaking, for which Fisher served six months. She will sail for the United States on the same steamer as Fisher, refusing to be separated from him. Witte says he will not lose sight of Fisher while he is on board the Teutonic, as the prisoner escaped once before.

MURDERED BY THE KHALIFA.

REPORTS CONCERNING THE CHRISTIAN PRIS-ONERS AT KHARTOUM.

Suakim, Nov. 30 .- Advices received here from Kassala announce that reports are current there that the Khallfa recently murdered several Christians at Khartoum.

After Slatin Pacha, the Austrian officer, who was held a prisoner for eleven years by the Dervishes at Omdurman, near Khartoum, escaped, over two years ago, he said regarding the Europeans who are still the prisoners of the Khalifa: "At present there are at Omdurman Charles Neufeld, a German merchant; Sister Teresa Grigolini, of the Italian Catholic mission: Giuseppe Cuzzi, an Italian mer-chant, now old and decrepit; Josef Rognotto, an Italian lay brother of the Austrian mission: several Greeks, a number of Egyptian officers and men and several Christians. These are all forced to appear as Mahometans."

COUNTESS ESTERHAZY SPEAKS.

THE REPROACHES "FIGARO" FOR EXPOSING HER HUSBAND'S WEAKNESSES.

Paris, Nov. 30 .- The Countess Esterhazy, wife of Count Walsin Esterhazy, who is charged with hav-ing written the letter which led to the imprison-ment on the Isle of Devils of Captain Alfred Dreyfus on the charge of betraying French military secrets to a foreign Power, and copies of whose alleged letters, reflecting upon the honor of high French military officials, have recently been published by "Figaro," has written that journal, upbraiding it for laying bare the "recesses and hubraiding it for laying bare the recesses and man weaknesses" of her husband's private life. "regardless of the fact that it may break a wife's and a mother's heart." The Countess closes her letter with the statement: "All this is my concern alone: but, confident that my husband's honor will emerge intact, I forgive and forget all."

WHITNEY'S PURCHASE OF RACE HORSES.

HE SAYS THAT IT IS HIS PURPOSE

Lexington, Ky., Nov. 30 (Special).—Ex-Secretary Whitney, who is here buying race-horses, says that he intends to use them for hunting purposes. When asked regarding the report that he was pre-"I am not in the racehorse business. You see, these horses I am buying in most instances are etrong, rangy fellows and will make just the kind of animal one would like to ride on a hunt. I live down on Long Island and hunt a great deal.

Just how many horses I will buy I cannot say."

Notwithstanding Mr. Whitney's statements re-

garding using the horses for hunting purposes, there are many who believe he is going to race them next season. Several turfmen are of the opinion that J. J. McCafferty, who is also here.

opinion that J. J. McCafferty, who is also here, will be placed at the head of the string, and that Mr. Whitney intends backing him; out McCafferty has done none of the buying and is not seen with Mr. Whitney in the sale ring.

Although Lou Bramble was knocked down to S. S. Brown, the owner of Lady Reel, Hamburg's dam, it is stated on good authority that Lou Bramble goes to Mr. Whitney. S. T. Harbison was noting for Mr. Whitney in the sale ring to-day, but when Bob Baker's great mare was put up, Brown was called into consultation by Harbison and did the bidding. She cost the ex-Secretary \$9.000. All told, Secretary Whitney got purchases amounting to \$15.500. The animals are Lou Bramble, Loki, Jean Ingelow, King Bermuda, Ruskin and Sir Vassar.

Of course, everybody who takes the slightest interest in racing is intensely pleased at the success of James T. Sloan in England. "Tod," as he delights to be called, proved a surprise to the Britons. In the midst of the triumph and pleans over "Tod's" prowess and skill as a jockey, American turfmen should not forget that John Huggins, an American trainer, sent fifty-seven winners to the post in the season that has just closed. The horses trained by Mr. Huggins won \$30,000 in stakes and purses for the Lorillard-Bereeford stable. It should be borne in mind that the material in Mr. Huggins's stable was not above moderate calibre, and that the horses were the produce of the Rancocas Farm, of Johnstown, N. J. John Huggins will leave England on December 6. He will remain in this country six weeks, and will then return to England.

Ne tidings have been heard from the Horsemen's

land.

No tidings have been heard from the Horsemen's
Protective Association for several days. It is
barely possible that the leaders have taken a trip
in a balloon to the North Pole to recover from the
effects of the chilly reception accorded them by
the Jockey Club.

There are few owners and trainers to be seen in
Broadway. Many of the racing men are in Baltimore.

MUSIC.

THE THIRD ASTORIA CONCERT.

It would be difficult to imagine a happier comthird Seldl subscription concert in the ballroom of the Astoria last night. The acoustic qualities of the room have been much discussed ever since the first concert was given, and some suggestions have been made looking to their betterment. That any change would be an improvement we very much doubt. Mr. Joseffy's pianoforte performance last night afforded a most admirable test. He was in his most poetic mood, and the music that he played at times invited and received the veriest whisper and flutter of sound, yet it is questionable whether single note was lost to a single attentive listener. added parts of Tausig. The running passages which accompany the horn solo in the Romance he played in a ravishing planissimo, but every note fell upon the ears of the listeners at the opposite end of the room with delightful distinctness. Nor was there any undue blare of brass in the fortissimos of the orchestra. Instead, there was an exquisite blending of colors, and a dynamic symmetry seldom noticed at concerts in the other halls of the city. The effect of an orchestra in the ballroom is simply fine. The tone of the band is full and abundant, and has that quality of intimacy which is so helpful to a sympathetic listener without being in the least harsh or obtrusive. It is possible that to remove the carpet, as has been suggested, would add to the stridency, or call it brilliancy, of the music, but there would be a loss in other ele-ments of comfort and taste for which greater sonority would not be a sufficient compensation. The concerts are beautiful affairs. The audiences that attend them are gentle and appreciative of lofty things, and there does not seem to be any rea-son why they should not become in themselves the most notable artistic events in the country, and a medium for mightily raising the standard of music

The programme last night was judiciously arranged. It opened with the "Sakuntala" overture by Goldmark. This was followed by the Chopin con-certo, which Mr. Joseffy graciously and happily supplemented with two exquisite intermezzi by Brahms. Then came the customary intermission, after which the orchestra played the overture and Bacchanale from Tannhäuser. The apprehension, felt frequently of late, that a perfunctoriness of manner was taking possession of our orchestral con-certs which threatened harm to the art, was not called forth last night. A lovely spirit of earnest and devoted effort pervaded everything, and was nowhere more manifest than in the painstaking ac-companiment which Mr. Seidl provided for Mr. Joseffy, even if it must be said that there were times when a difference was noticeable between the conductor's wishes and the band's performances.

As for Mr. Joseffy's playing, an attempt to describe it would result in rhapsodical utterances which those who did not hear him would find it difficult to accept as sober, very truth. It was a manifestation of the planist's art which was alto-gether lovely. Not a tone did he produce from the pianoforte, from the loudest to the softest, which was not saturated with sensuous beauty. If there were no praise to bestow for the wrondrous perfection of his technical achievement, nor a word of admiration for the poetical sentiment which he infused into every measure that he played, one would still have to laud as something which sets him quite apart from all other planists, his command of planoforte nuance and timbre. But everything in the performance called for admiration last night.

COLONEL HAY TO THE ROYAL SOCIETY.

HE EXALTS THE ACHIEVEMENTS OF SCIENCE AS AN UNMIXED BLESSING TO THE WORLD.

London, Nov. 30 .- The anniversary dinner of the Royal Society was given this evening, Baron Joseph Lister presiding. The company included United States Ambassador, Hay and several other members of the diplomatic corps, Lord Kelvin, Sir William MacCormack, president of the Royal College of Surgeons; the Right Hon, Charles T. Ritchie, president of the Board of Trade; the Right Hon. Str John Lubbock, member of Parliament for London University: Laurence Alma-Tadema, the painter; Baron Davey, of Fernhurst: the Duke of Devonshire and most of the leading British scientists.

Ambassador Hay, in presenting the principal loast, "The Royal Society," said: "In bodies of men like this on both sides of the sea exists one of the strongest bonds of

among peoples politically divided. They are united in the common love and pursuit of universal truth and by devotion to the best interests of mankind and the kindred passion for light and progress. In your pursuits everything unites and nothing divides. The results of science are all gain and no loss. The triumph of war has brought tears and anguish to both sides; the successes of diplomacy and trade are often attended by the discomflure of one of the parties; but the whole world is brightened and made re livable by the achievements of a Faraday or a Morse, and the genius of a Lister diminishes beyond computation the whole vast sum of human suffer-

has seldom been arrested. This is the first time that she has been caught at work in this city, derioin for some time, but she was not suspected of being the associate of thieves. They were arrested by Detective-Sergeants Aloncle and Carey on Monday afternoon as they were leaving a furrier's store downtown, where they had made a rich han!. The stolen garments were found in their possession, and were claimed in court by the furriers. The prisoners will be arraigned for further examination this morning.

While in Madison Square Park on Monday, the detectives saw the women get into a cab. One of them was recognized as "Big May," and the officers immediately jumped into another cab and followed them. The first place the women visited was the store of Asch & Jacckel, furriers, at Nos. 20 and 22 Waverley Place, where they remained firteen minutes. In this store they stole a sealskin sacque worth \$500. They next visited the fur store of Adolph Friemel, at No. 1,113 Broadway. There they obtained a cape worth \$200. They were in the act of driving away from the store when Carey jumped into the cab and arrested them, and told the cabman to drive to Police Headquarters.

"Big May" is suspected of having stolen two sealskin sacques, valued at \$400, from the store of James McCreery & Co., at Eleventh-st. and Broadway, two weeks \$50. A woman answering to her description was in the store just before the garments were missed.

MINISTER WOODFORD TO GIVE A DINNER. Madrid, Nov. 80 .- The United States Minister, General Stewart L. Woodford, will give a banquet here on Sunday next in honor of the Government officers and members of the diplomatic comps.

MR. SEWARD'S VIEW OF THIS COUNTRY'S RELATIONS WITH ITS NORTHERN

NEIGHBOR. To the Editor of The Tribune. Sir: Canada is the petted child of a wealthy and powerful mother. Accustomed to gain what she wants by teasing, she loves to tease. Whatever ebullitions of temper she may at times display, she has a warm affection for her parent, and not the least idea of leaving the maternal shelter. When she desires anything she turns to the mother country to help her get it. When she gets into scrapes or commits depredations she looks to the mother country to protect and defend her. She is largely independent but wholly irresponsible. She is young and fair and hearty, and not

unnaturally she likes to coquet and flirt a little with her neighbor Jonathan, or to tease him when he does not respond to her wishes. She believes that he has a hankering for her-a harmless delusion, for he has had enough experience of discordant elements in his household not to desire any more at present. Certainly she is a great heiress, and she believes herself a great match. But he has no serious thought of joining his fortunes with one whose disposition, to say the least, seems vixenish. Neither has she any serious thought of changing her condition. She would like to keep the privileges she has, and to get such others as she can. With such a neighbor it is difficult to come to a bargain or agreement about any-

In other words, Canada is not a nation, but a colonial province, backed by a great Power. According to the law of nations, negotiations with her have to be conducted through the mother country. And in this, as in other matters, the law of nations is founded on wisdom and experience.

Among her public men are some able and accomplished statesmen, who every now and then engage in some well-meant effort to promote an entente cordiale between the two countries, and wonder that it fails, when both peoples are of the same race and language. But the Canadian statesman soon finds that, however sagaclous he may be, he has behind him a constituency who are not disposed to 'give and take' in the ordinary ways of diplomacy. An independent nation gives and takes because it thereby secures peace, commerce or perhaps existence. But Canada, while ready enough to take, feels under no obligation to give away anything. The American statesman, on the other hand, soon finds that he is dealing with the agents of a people who can promise nothing, even if they wanted to. All has to be referred again to England. Canada does not want to join the American

Union, but she would like to secure the same advantages, through reciprocity in trade, favorable duties on her products and privileges to her lines of transportation on land and sea. It is a natural desire, but she sets about accomplishing it in an illogical and childish way. When she had a reciprocity treaty with the United States she could not resist the temptation to encourage raids and conspiracies against our commerce. That roused American National feeling, and that ended the reciprocity treaty. So in the fisheries dispute she seemed to desire to tease us into compliance by reviving antiquated laws and port regulations, and imposing vexatious restrictions on our fishermen-as if that would cultivate international goodwill!

In the same way now, Canadian journals and crators are threatening us with vexatious imposts and fines on our miners, and with the continuance of pelagic sealing in Behring Sea, although they confess they find it unprofitable. This is not the conduct of a great nation. But Canada is not a great nation. Among nations she is what a well-grown, headstrong child is in a family of mature and responsible people.

We shall arrive at a correct understanding of our relations with her all the sooner if we will bear this fact in mind. FREDERICK W. SEWARD.

STOP THE RUIN OF THE PALISADES.

Sir: Now and then an article appears in the daily papers in regard to the "mutilation of the Palisadea." An article appeared a few days ago telling us that the quarrymen were violating a law by blasting these beautiful rocks of nature, and that measures would be taken by the New-Jersey Legislature to stop this terrible demoition; but, alas! in a day or two another article follows saying the case would not be brought up or bad been deferred until December 16. In the mean time these quarrymen, who care nothing for the beauties of God's handlwork, are working fasier than ever to break down these magnificent bulwarks. Cannot something be done, and done quickly? Newnot something be done, and done quickly? Newnot something be done, and done quickly? Newnot something has been to the scene! MANSFIELD IN PHILADELPHIA.

Philadelphia, Nov. 30.—Richard Mansfield had a triumphant opening at the Grand Opera House last night. He played "The Devil's Disciple," and it was received with enthusiasm by a crowded house. This, too, was in spite of the fact that the Grand Opera House is one of those theatres which Grand Opera House is one of those theatres which are independent of the theatrical syndicate. It is also away from the theatrical centre of the city, and does not rank among the high-priced houses on ordinary occasions. The reception accorded to Mr. Mansfield and to his play last night gives promise of a most prosperous engagement. This result is indicated also by an uncommonly large advance sale.

In 1811 he entered King's College and University, from which he was graduated in 1824. He studied subsequently at Highbury Theological College, London, and in 1876 received the degree of Doctor of Laws from the University of Aberdeen. Fourteen years later he received the same degree again, this time at the tercentenary of the University of Edinburgh.
